

## Claims

- [c1] 1. An apparatus for dispensing pre-moistened wipes comprising:
- a housing;
  - a two sectioned tip member for dispensing of the pre-moistened wipes the two sectioned tip member having a lower section connected to the housing and an upper section having;
    - a. a well
    - b. an opening in the well
    - c. a cover over the well and opening
    - d. a self closing mechanism functionally attached to the cover;
  - a hinge member functionally connecting the upper section and the lower section of the tip member and
  - a locking mechanism functionally attached to the upper and lower sections of the tip member.
- [c2] 2. The apparatus of claim 1 wherein the lower section of the two sectioned tip member is connected to the housing in a non-removable manner.
- [c3] 3. The apparatus of claim 1 wherein the self closing mechanism is engages the cover of the tip member.
- [c4] 4. The apparatus as defined in claim 1 wherein a portion of the housing is composed of a transparent material.
- [c5] 5. The apparatus as defined in claim 1 wherein the housing is made of a transparent material.
- [c6] 6. The apparatus as defined in claim 1 wherein the opening of the tip member is essentially circular with at least one protrusion extending towards the center of the opening.
- [c7] 7. The apparatus as defined in claim 1 wherein the self closing mechanism comprises:
- a. an arm member;
  - b. a spring member;
  - c. an attachment member;

wherein the arm member is attached to the cap member and the attachment member is attached to the lower section of the tip member and the spring member engages the arm member and the attachment member simultaneously.

[c8] 8.The dispenser of claim 1 wherein the housing has a connecting member for engaging a support member.

[c9] 9.The dispenser of claim 8 wherein the connecting member is engaged with a bracket for securing the dispenser to a fixed surface.

[c10] 10.The dispenser of claim 8 wherein the connecting member is engaged with a clip which is secured to a belt or waist band.

[c11] 11.A dispensing apparatus and a pre-moistened wipes pack fully contained in the dispensing apparatus the dispensing apparatus having a transparent portion which may encompass no more than the entire dispenser where the pre-moistened wipe packs contain a color that correlates to a product on the wipes and can be seen through the transparent section of the housing.

[c12] 12.An apparatus for dispensing pre-moistened wipes and pre-moistened wipes pack comprising:a housing;a two sectioned tip member for dispensing of the pre-moistened wipes the two sectioned tip member having a lower section connected to the housing and an upper section having;

- a. a well;
- b.an opening in the well;
- c.a cover over the well and opening;
- d.a self closing mechanism functionally attached to the cover;
- a hinge member functionally connecting the upper section and the lower section of the tip member;
- a locking mechanism functionally attached to the two sections of the tip member;
- a pre-moistened wipes pack including:
  - a.a packaging member containing;
  - b.a color component;
  - c.wipes and

d.a solution on said wipes.

- [c13] 13.The apparatus of claim 12 wherein the wipes are in a center pull continuous circular pack with perforated divisions at the end of each sheet.
- [c14] 14.The apparatus of claim 13 wherein a lower section of the two sectioned tip member is connected to the housing in a non-removable manner.
- [c15] 15.The apparatus of claim 14 wherein the self closing mechanism is attached to the cover of the tip member.
- [c16] 16.The apparatus as defined in claim 13 wherein the opening of the tip member is essentially circular with at least one protrusion extending towards the center of the opening.
- [c17] 17.The apparatus of claim 12 wherein the housing has a connecting member to attach said dispenser to supporting surfaces.
- [c18] 18.The apparatus as defined in claim 15 wherein the housing contains a portion which is composed of a transparent material.
- [c19] 19.The apparatus as defined in claim 15 wherein the housing is made of a transparent material.
- [c20] 20.The pre-moistened wipe pack as defined in claim 12 wherein color component has a varying color correlating to the solution contained in the pre-moistened wipes pack.
- [c21] 21.The pre-moistened wipe pack as defined in claim 19 wherein the color component is contained in the solution.
- [c22] 22. The pre-moistened wipe pack as defined in claim 19 wherein the color component is contained in the packaging member.
- [c23] 23.The pre-moistened wipe pack as defined in claims 13 wherein the pack contains a starter pin to engage the wipes with the opening of the tip member.
- [c24] 24. The starter pin of claim 22 wherein the pin has a handle portion attached to an elongated shaft that spans the length of the wipes in the pre-moistened

wipes pack.

[c25]

25. The starter pin of claim 23 wherein the pin has small protrusions that extend the entire length of the shaft.
